Who Is **Brad Traversy**?

Brad Traversy is a well-known web developer and content creator. He has been creating content for over 10 years and has a large following on YouTube and his website. He is known for his clear and concise teaching style, making him a popular choice for those looking to learn web development.

✓ **Freelance Mastery** is a platform that provides a comprehensive curriculum for learning web development. It covers everything from the basics of HTML and CSS to advanced topics like JavaScript and React. The platform also offers a supportive community of learners and a chance to work on real-world projects.

I started coding in 2007 at the age of 26. I became a full-time educator & content creator in 2016.

I show people that they don't have to be a straight A student or a genius to learn to code.
I break down complex concepts by showing you how to implement them in project-based courses and tutorials.
